COMPANY PROFILE

Integrated Logistics Solutions across Central & Southern Africa

DRC · ZAMBIA · ANGOLA · TANZANIA · MAURITIUS

Who We Are

Founded in 2008 and headquartered in Mauritius, **the SLS Group** is a privately-owned logistics provider with deep expertise across Central and Southern Africa.

We operate through specialised brands to deliver localised precision:

SLS Trading — Mauritius HQ & international cross-border operations

Puretrans — Specialised operations in DRC, Zambia & Tanzania

Open Corridor Logistics — Dedicated Angola operations

Over 18 years of operational excellence

18+

Years of operation

35,000 MT

Freight moved / month

40,000 MT

Reagents supplied / month

500+

Partner trucks (50+ owned)

34,000+ SQM

Covered warehousing

5

Countries of operation

Vision, Mission & Values

Our Vision

To be the trusted logistics partner of choice across Central and Southern Africa — recognised for operational excellence, responsiveness and a deep understanding of local realities.

Our Mission

To provide comprehensive, high-quality logistics and supply-chain solutions with precision, reliability and professionalism — from road to rail.

Safety First

We place safety at the heart of everything we do — protecting our people, partners, assets and the environment through responsibility and risk awareness.

Our personal touch sets us apart — ensuring consistently high standards across every route we serve.

Corridors & Regional Presence

From the DRC Copperbelt, we connect mining operations to every major port in the region — a resilient, multi-corridor network with Ndola as our southern distribution hub.

SLS Trading Mauritius HQ & international cross-border operations

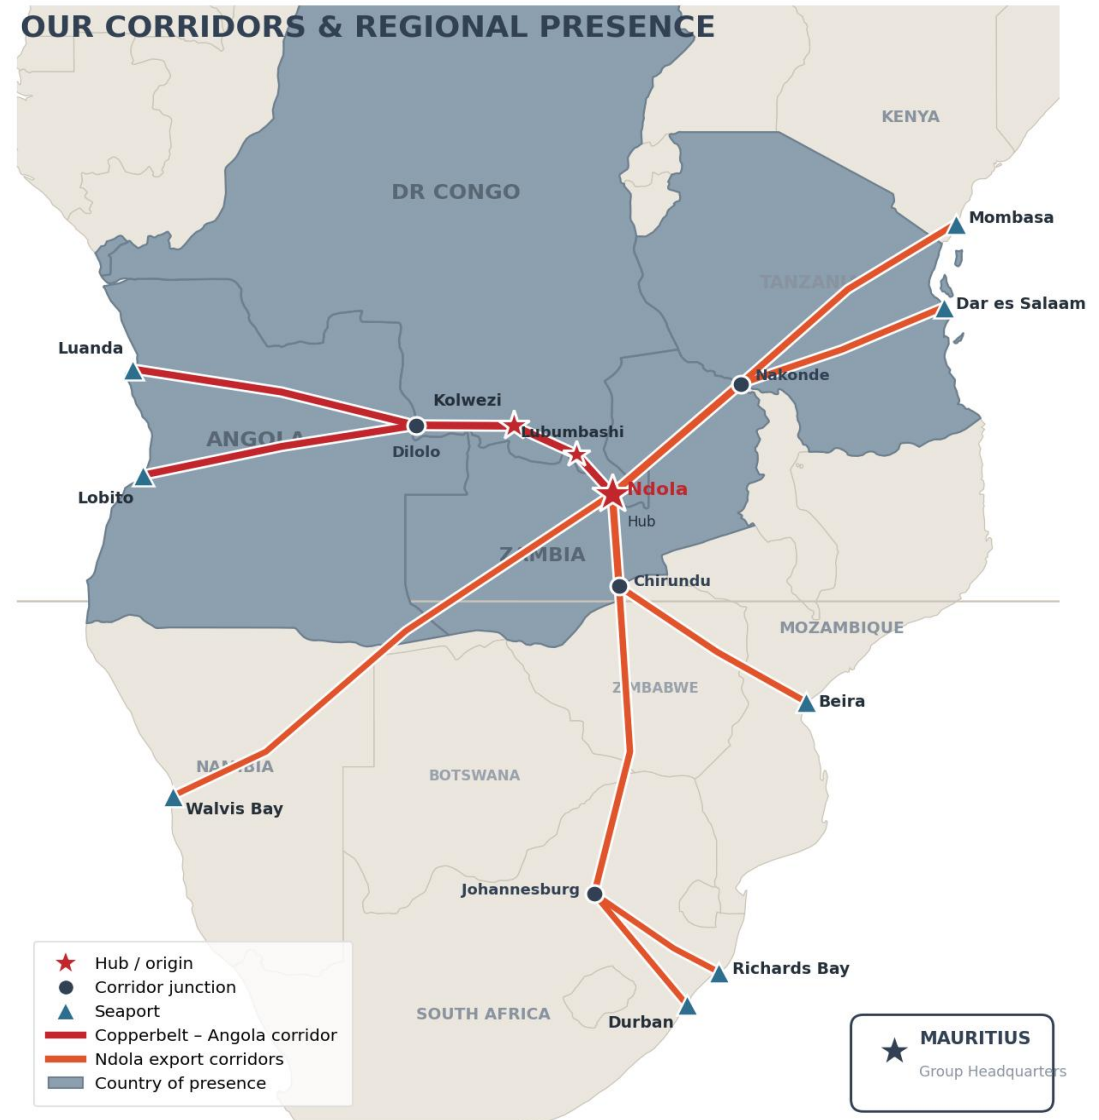

Puretrans Specialised operations in DRC, Zambia & Tanzania

Open Corridor Logistics Dedicated Angola operations

Export gateways

Lobito · Luanda · Dar es Salaam · Beira · Walvis Bay · Durban · Richards Bay · Mombasa

Comprehensive Service Portfolio

Freight Forwarding

Integrated road & rail solutions moving 35,000 MT monthly to and from the Copperbelt.

Rail Logistics

Expertise across the Dilolo and Lobito corridors for mineral and reagent transport.

Warehousing

Over 34,000 SQM of covered warehouse and canopy across strategic regional hubs.

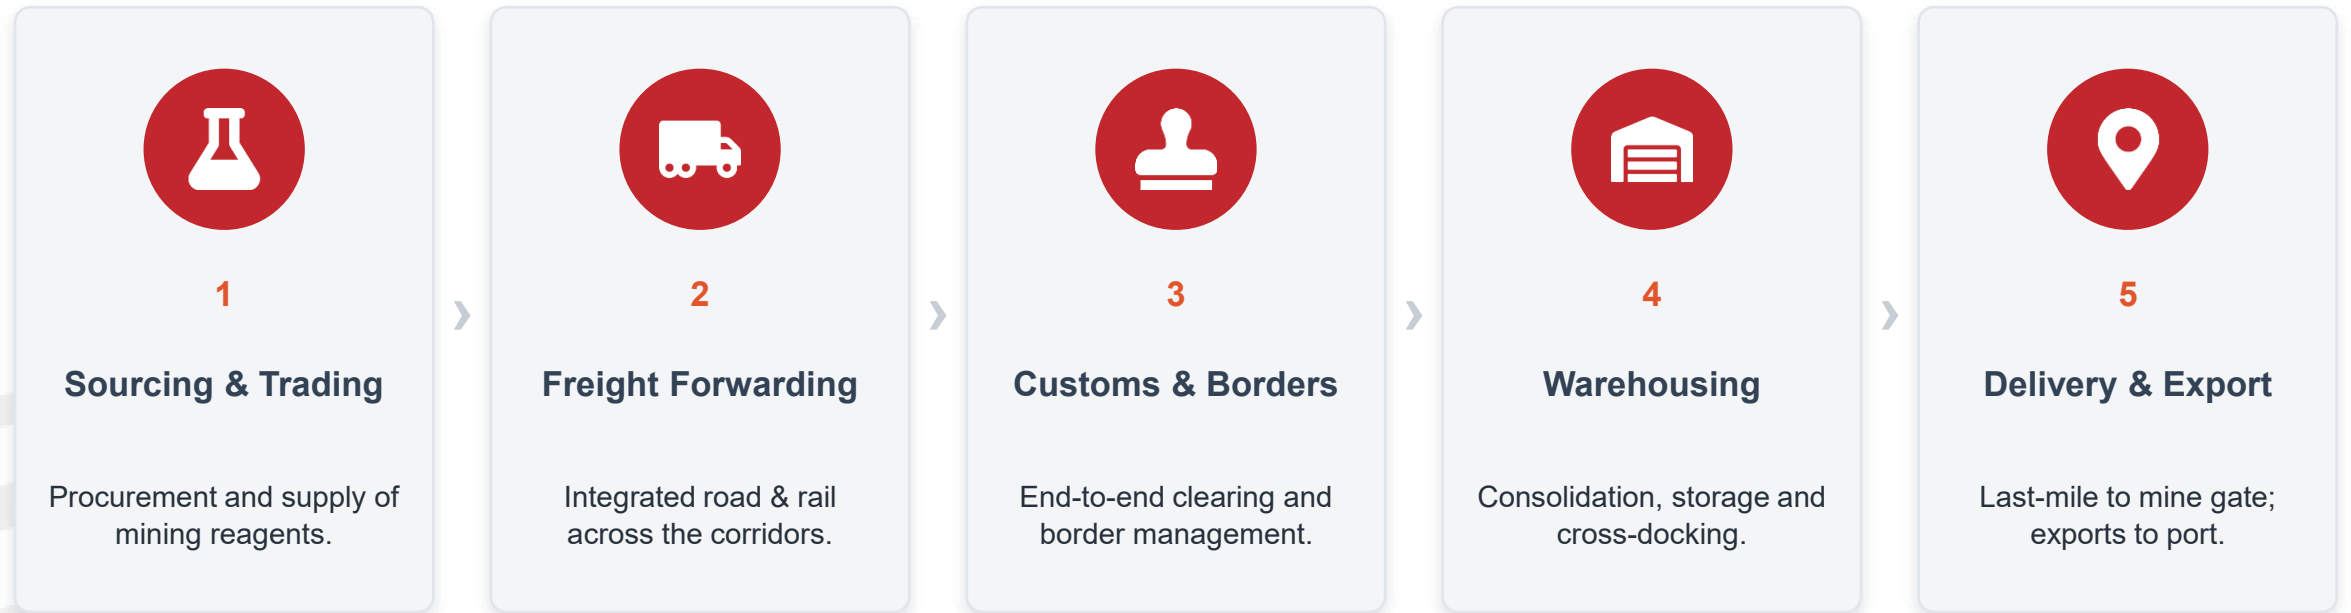

Reagents & Trading

Import and local supply of 40,000 MT monthly of essential mining reagents.

How We Work

One accountable partner, from port to mine gate — every service connects into a single managed solution.

Transport & Fleet Capacity

500+

Partner trucks

50+

Owned fleet assets

Elite Fleet Management

A heavy-duty, modern fleet configured for difficult routes and secured mineral corridors.

24/7 satellite GPS monitoring of all assets

Strict diagnostic & preventive maintenance cycles

Licensed drivers trained for Copperbelt terrain

Strategic Warehousing Network

Facility Location	Covered Area (SQM)	Total Land Plot (SQM)	Specialisation
Kolwezi (DRC)	19,000	100,000	Bulk reagent & mineral staging
Ndola (Zambia)	12,500	41,000	Inbound / outbound logistics hub
Luau (Angola)	2,500	—	Rail-to-road corridor transit
Lubumbashi (DRC)	—	18,000	Admin & fleet maintenance hub

Strategically positioned to stage bulk reagents inbound and consolidate mineral exports outbound.

Our Warehousing Facilities

Over 34,000 SQM of secured, covered warehousing and canopy across strategic regional hubs.

Rail Logistics Capabilities

Unlocking multimodal efficiency

Operating through two major corridors, we provide the most efficient path for bulk minerals and reagents.

- **Corridor 1:** Kolwezi – Dilolo – Lobito / Luanda
- **Corridor 2:** Likasi – Lubumbashi – Sakania – Ndola

4,000 MT

Current monthly rail capacity

Target: **8,000 MT (2026 / 27)**

Mining Reagents & Trading

Products & Sourcing

40,000 MT of essential mining reagents imported and locally supplied into the DRC every month.

Sulphur & Sulphuric Acid

Lime & Coal

SMBS & MGO

We handle procurement, secure transport and site delivery — with absolute environmental compliance.

A Trusted Industry Partner

We support global commodity traders and mining majors across the region with secure, high-integrity handling of copper cathodes and cobalt exports.

HIGH-SECURITY HANDLING · COPPER CATHODES · COBALT EXPORTS

Who We Serve

We act as a single accountable logistics and trading partner for the region's most demanding cargo owners.

Mining Majors & Asset Owners

Copper, cobalt and bulk mineral producers across the Copperbelt.

Global Commodity Traders

International trading houses moving metals and reagents through the region.

Subcontractors & EPC

Mining contractors and engineering firms needing reliable project logistics.

Reagent & Consumables Suppliers

Producers of sulphur, acid, lime and MGO supplied into the DRC.

HSE & Compliance

Safety, quality and environmental responsibility are built into every operation — certified to international standards.

ISO 9001

Quality Management

Consistent, reliable service delivery and continuous improvement across all operations.

ISO 45001

Occupational Health & Safety

A proactive safety culture protecting our people, partners and assets — Safety First.

ISO 14001

Environmental Management

Responsible operations minimising environmental impact and ensuring compliance.

Why SLS

Deep Local Knowledge

18+ years on the ground across Grand Katanga and the Copperbelt — we navigate the region's most complex corridors with confidence.

One Point of Contact

A single accountable partner for your entire supply chain — from port to warehouse to mine gate.

Operational Urgency

Urgency is built into how we operate, not just how we communicate. Your cargo moves on schedule.

Personal Approach

Our personal touch is our corporate signature — the people who move your cargo stay reachable.

Strategic Roadmap 2025 – 2028

Scale Angola corridor operations (Lobito & Luanda).

2025

Infrastructure expansion at Dilolo & Luau terminals.

2027

2026

Increase rail capacity to 8,000 MT / month.

2028

Regional network expansion & deeper multimodal integration.
